

SCMHCC COMMUNITY BASED SERVICES

Community Based
Service providers work
with
children and their
families to reduce the
negative effects of be-
havioral concerns. Our
goal is to assist fami-
lies in improving their
overall quality of life.

For behavioral health assessment or
intake call one of our clinics:

KEEP KIDS IN SCHOOL YOUTH COMMUNITY LIAISON SERVICES

CBS SERVICES

Children and their families can benefit from a wide variety

of services designed to fit their needs.

OUR SERVICES:

Provide supervision or support of daily tasks, activities, or routines.

Assists parents in eliminating difficulties resulting from oppositional behaviors and school refusal, development of daily living skills and routines and assistance with development of social and interpersonal and other learned skills.

Assists the family in developing and enhancing problem solving skills, coping mechanisms, and the development of strategies for symptom/behavior management.

Works with the family to interpret choice, and to understand policies and procedures as it relates to school attendance and truancy.

We can help!!

- Early Contact
- Early intervention for absenteeism and tardiness
- Addressing school refusal to find alternatives
- Identify barriers to school attendance and assist in problem solving
- Structured plan to assist youth and parents with educational and attendance goals
- Provide support to student and parents
- Assist family with access to needed community resources
- Avoid truancy and court ordered services, DCF and JJA reports

KEEPING KIDS IN SCHOOL

Working Together to Help Youth Thrive in Schools and Communities through systems of care
