Weight Loss/Smoking Cessation

The joys and struggles of daily life can be exciting, empowering, stressful, and even painful. These struggles affect every person differently. Based upon the specific difficulty, our staff will help tailor a treatment strategy the best meets your needs.

Child and Family Services

Fears/Anxiety
Divorce/Family Issues
Behavior Problems
Learning/Attention
Substance Abuse
Parenting
Depression
Peer Relationships
Psychological Evaluations
Medical Evaluations

Stress in children can manifest as chronic conflict with parents, failing grades, and poor peer choices, to name a few. The family environment should be a safe haven and not a war zone. Our staff thoroughly assesses the root cause of difficulties in order to provide the most appropriate and best treatment that is available.

Community Support Services

Supported Employment
Educational Development/Support
Family Support/Education
Respite Care
Therapeutic Pre-School

Community Support Services are designed for children and adults with severe mental illnesses or behavioral problems that sometimes put them at risk for hospitalization or other out-of-home placement. Services are often provided in natural settings and developed to meet specific needs so that the person can develop the skills necessary to live a productive and gratifying life within their community. The ultimate goal is recovery from the illness.

*helping to
shape promising futures*

The goal of SCMhCC is to provide confidential and cost effective care that is easily accessible.

*charges for
SCMHCC*

Most insurance companies, including Medicare and Medicaid, provide coverage for our services.

For individuals without insurance or other financial resources, fees can be established at a reduced rate provided that you are a resident of Butler County.

Specific information regarding fees can be obtained by calling 888-994-8454.

*about
